

Dear FCC,

I urge you, not to submit to the lobbying of the telemarketers who in the name of freedom of speech aim at envading the privacy of New Jersey citizens. When the "No Call" list was started, the telemarketers were still calling daily. Even, their calling numbers could not be blocked from my phone. After New Jersey started its more stringent system, I have not benn recieving any telemarketers calls. I do not want that to end. Telemarkters can exercise their freedon of speech in public places, as much as they please. But please keep them away fro the privacy of my phone.

Sincerely,

A. Y. Ghali, M.D., M.P.A.
